

Logica Verbalis II

T. Prousalis-hriqtests.com, December 2022

Description : Logica Verbalis II consists of 50 items, in which one should either find the word (or set of letters) that satisfies best the given analogy or the word that associates best with a set of three words.

Knowledge required : In most items, no specific knowledge is required. When needed, required information can easily be accessed with a simple search on the www.

Structure : Items are not set in order according to difficulty.

Rules : There is no time restriction. Discussing items with others and/or sharing them in any way (eg. public or private fora) is prohibited. Respect others' work and potential, author's work and, above all, respect yourself and your own, unique, potential.

Answers : Send your answers according to instructions found here: <https://hriqtests.com/instructions/>

Statistics : Correlation with standard psychometric batteries and various tests/puzzles will be calculated and published (after sufficient data is gathered); an attempt to provide approximate Theoretical IQ per raw score will be made. In addition, separate statistics for native and non-native English speakers will be made.

Examples :

I) Associations- a, d, k (6). **Answer** : Letter.

II) Analogies- A : Letter :: One : (6). **Answer** : Number.

In each item, number in brackets (like (6) above), denotes the number of letters of the answer.

Test begins.
